BICYCLE ROOM CLEAN OUT

Periodically the Management Office does an inventory of the Bicycle Room to insure that all the bicycles stored there are properly registered. We will be checking to make sure all bicycles are properly registered by June 30. If you are storing an unregistered bicycle in this room, please come to the Office and properly register it. Any unregistered bicycle will be removed the week of July 5. Also, if you are no longer using your bike, notify the office so we may donate it to charity to allow more bike rack storage. They will not be available for residents.

If you have any questions, please contact the Management Office.

We thank you for your cooperation.
