

In Case of Fire/Smoke

1. When the alarm sounds, please leave your unit as quickly as possible and head to the nearest fire tower to exit the building. A floor plan of fire towers will be provided.
2. The elevators will not be working.
3. If you are unable to exit the building on your own when the alarm sounds, contact the office and an "I" or a yellow dot will be placed on your door. This will alert the fire department that you cannot exit the building on your own, and they will come get you. Unlock your door when the alarm sounds.

There are three fire wardens each on floors 6-12, and one or two each on floors 1-5. They are your neighbors who have volunteered to serve our condominium community.

They move quickly, knocking on doors to alert you that the alarm is sounding. They will inform you of the situation as they know it and request that you leave your unit (if you are able) as quickly as possible. They will not negotiate.

Fire, Safety and Security are an important part of living in the Strath Haven Condominium community. We are looking for a few more volunteer fire wardens. If you would like to get to know your neighbors and help our community, please contact Sandie or Al at sanchatfield@yahoo.com or 610-543-3324.
