Dear Terri:

Liberty and Strath Haven Condo Association have had a strong working relationship for many years. We value that relationship and have a deep appreciate for the standards set by your organization. It was with regret that I had to inform you very late yesterday, of a set of circumstances that required Liberty to postpone the project scheduled for September 28. This was not a decision made lightly but made from an abundance of caution for your residents, staff, and our working crew.

We understand the inconvenience a project of this size can cause to Strath Haven even when all goes according to plan, let alone having to postpone at the very last minute. We ask that you let your residents, staff and the Board know how very sorry we are this occurred. This is not how we operate and want to stress to everyone how earnestly we take all matters into consideration prior to making an impactful decision, like we did yesterday.

We understand from speaking with you today, that we can reschedule this project for Tuesday, October 19. This will provide all parties involved with ample notice and allow residents to make any arrangements that might be needed well in advance of the work taking place.

Again, thank you for putting your trust and business in Liberty Mechanical.

If you should have any questions, please do not hesitate to contact me at 267-688-8139.

Best regards,

Mike Burns
