MEMORANDUM

To: All Residents
From: Terri F. May, AMS® -- ASSOCIATION MANAGER
Subj: **PRINCETON TOTAL WATER SHUT DOWN SEPT 29 @ 8 AM**
Date: September 15, 2021

We are providing advanced notice of the **TOTAL DOMESTIC WATER SHUT DOWN ONLY** for the **Princeton** building on **Wednesday, September 29 beginning at 8 am**. The work is expected to take approximately 10 hours to complete. This means you will not be able to use **either the hot or cold water anywhere in your unit**. This means that you **WILL NOT** be able to *flush your toilets, run your faucets, tubs, dishwashers or washing machines*.

Our staff will need access to every unit on the 12th floor Princeton (1201 through 1212), starting at 8 am. The staff will also need access to units 201 through 208 and 101 through 108, again starting approximately at 8 am.

The are public restrooms available in the 5th floor Meeting Room and the 6th floor Harvard mailroom.

Once the water system is restored, you may notice some brown sediment coming out of the faucets and tubs. This is normal and you should let the water run until it is clear.

Additionally, once the system is restored, it will be **several hours before the hot water is up to temperature**. Again, this is normal as the **entire** hot water system for the building will need to circulate.

Repairs are being made to the damaged water lines in the Princeton lobby area, Management Office, and boiler room. It has taken us some time to get the necessary parts and then to schedule the work with Liberty Mechanical.

Any questions, please contact the Management Office at 610-544-6000.
