## Memo:

**To:** All Bicycle Owners  
**From:** The Management Office  
**Date:** March 10, 2022  
**Subject:** Closure of Bike Room

---

We are writing to let you know that the Board of Managers has approved eliminating the Bike Room as of Feb. 22 in order to create a new and larger package room. Therefore, any bikes presently stored in the Bike Room will need to be rehoused in a location of your choice such as an outside bike rack, your unit, or your storage locker. Bikes may not be stored on balconies.

We do not have an exact start date for the project but know it will start in the coming weeks.

We ask that all bikes be removed by April 15 in advance of the work starting. Any bikes not removed by that date will be donated. We thank you for your cooperation.
