MEMORANDUM

To: All Residents
From: Terri F. May, AMS® -- ASSOCIATION MANAGER
Subj: PRINCETON LOBBY DOOR -- UPDATE
Date: June 7, 2022

ADT came out today to investigate the cause of the issue with the main lobby door. They corrected an issue, but the door will not release either by the entry system or the key fob. Therefore, you can still not access the building by using your key or the phone entry system. You must use the service entrance to gain entry into the building.

You may exit the building via the lobby without issue.

We need to have the door service company (ADS) and the key service company (ADT) out at the same time to work together to resolve this issue.

We are working to make that happen as quickly as possible. We apologize for the inconvenience to you and your visitors.

Please direct visitors to use the Princeton service entrance or either of the entrances at the Harvard building to gain access to the building.

As updates become available, you will be notified.

Any questions, please do not hesitate to contact the Management Office at 610-544-6000
